

I have been a customer of XM radio for six months. Numerous advantages include: commercial free - hassle free radio, up to date and continuous traffic/weather, and the option to listen to anything you want.

I like being able to turn the radio on and not have to hear thirty minutes of commercials. I also like not having to wait to hear the traffic and weather. I am completely satisfied with my service and will support XM radio in every aspect I am able.

Thank you for your time.
